### Multimedia Specialist & Educator @ WILSHIRE BLVD TEMPLE CAMPS

June 2018 - Present | Malibu, CA and Koreatown, Los Angeles, CA

- Developed curriculum for and instructed digital media classes for children ages 6-16.
- Directed, filmed, and edited several community videos and short films using Premiere.
- Received training in leadership, inclusivity, and other workplace values.

### Lead Web Developer & GFX Designer @ SENDERS COMMS. GROUP

Jan 2018 - June 2018 | Woodland Hills, CA

- Created beautiful webpages and sites for clients and internal campaigns/events.
- Wrote scripts for AWS DynamoDB & Cognito while developing union directory app.
- Developed React-based interface for browsing regional datasets about job listings.
- Was lead designer/layout on popular print publications with a national audience.
- Migrated, managed, and maintained fleet of company and organization websites.

### Node.js Developer & UI Designer @ NEWSMAKER SYSTEMS, INC.

Dec 2016 - Dec 2017 | Northridge, CA

- Developed "NewsCaster Cleanup" application with NodeJS + React (see projects).
- Operated, supported and assembled a proprietary video automation server system.
- Configured, tested, and troubleshoot SOAP & HTTP functionality in LAN servers.
- Was lead editor/designer during technical manual & documentation production.
- Developed fresh company website and UI designs for company software.

### Graphic Designer @ CSUN OFFICE OF INVOLVEMENT & DEVELOPMENT

Nov 2014 - Dec 2016 | Northridge, CA

- Workhorse for two campus institutions that required multiple concurrent projects.
- Led collaborative projects such as large-scale window art on campus buildings.
- Designed campus-wide official documents and artwork with print runs of >50k.

## Featured Projects

### NewsCaster Cleanup

Jul '17 | ~1550 Lines of Code

Utility application. Installs onto a client's video server, parses the server's database, detects the folder config, and looks for issues such as orphaned clips, missing folders, and duplicates. With this app, support techs can eliminate problem clips.

NodeJS | React | Electron | Windows Filesystem

### ♠ Hunter's Poker ♥

Dec '17 | ~1220 Lines of Code

An artistic draw poker game. Includes algorithm that assigns scores to poker hands. Fisher-Yates shuffle algorithm integrated for random deck shuffling. Opponent AI makes decisions based on real poker strategy. Playable demo available.

JavaScript Algorithms | React | CSS Animations | Gulp | Browserify
